This isn't just insurance.

It's an integrated engine powering a smarter way forward.

The Sypher HO-3 program is built for agents who expect more — smarter underwriting, flexible coverage, and the tools to win in today's coastal market.

Homeowners (HO-3)			
COVERAGE	AVAILABLE LIMITS	DEFAULT	ADDITIONAL NOTES
A – Dwelling Coverage	\$250,000 – \$2,000,000 *	RCE Value	- Defaults to RCE; adjustable –10% / +20% - Min varies by county; must be ≥100% RCE at bind *Higher limits to \$10M TIV by UW exception
B – Other Structures	0% – 70% of Cov A	2%	- RC on buildings; ACV on non-building structures - Available at 0%, 2%, or 5%–70% in 5% increments
C – Personal Property	0% – 75% of Cov A	25%	0% mandatory for Dwelling Under Construction - If excluded: signed letter per F.S. 627.712(3) — all named insureds - If excluded: Sypher Edge & Elite unavailable
D – Loss of Use / Fair Rental Value	0% – 20% of Cov A	10%	0% optional for secondary/seasonal only 0% mandatory for Dwelling Under Construction
E – Personal Liability	\$100,000 – \$500,000 **	\$300,000	**\$500K on Cov A ≥\$750K, or when required by overlying umbrella
F – Medical Payments to Others	\$1,000 – \$10,000 ***	\$3,000	***\$10K only when Personal Liability is \$500,000

* Min Cov A may vary by county; higher limits available by UW exception up to \$10M TIV. Coverage A defaults to RCE value; may be adjusted 10% lower or 20% higher

** \$500,000 Personal Liability available on Coverage A ≥\$750K, or when required by overlying umbrella policy

*** \$10,000 Medical Payments only available when Personal Liability is \$500,000. Not available when Coverage C or Coverage E is excluded

Deductibles			
TYPE	OPTIONS	DEFAULT	ADDITIONAL NOTES
All Other Perils	\$500 \$1K \$2.5K \$5K \$10K* \$25K* \$50K*	\$1K (<\$750K Cov A) / \$2.5K (≥\$750K Cov A)	\$10K–\$50K available on Cov A ≥\$500K only
Windstorm or Hail	\$500* \$1K \$2.5K \$5K \$10K \$25K \$50K** · 2% 3% 5% 10%	Defaults to AOP	Cannot be lower than AOP. *\$500 only on Cov A <\$1M; **\$50K on Cov A ≥\$500K only
Calendar-year Hurricane	\$500* \$1K \$2.5K \$5K \$10K \$25K \$50K** · 2% 3% 5% 10%	2% of Cov A	Cannot be lower than Windstorm or Hail. *\$500 only on Cov A <\$1M; **\$50K on Cov A ≥\$500K only

The Future of Florida Homeowners Insurance is Here.

Credits & Discounts

DISCOUNTS

Burglar Alarm

Local or centrally monitored; alarm certificate required at binding

Fire Alarm

Centrally monitored; alarm certificate required at binding

Fire Sprinkler System

Full system required; sprinkler certificate required at binding

Secured Community

Discount for Gated, or Gated & Guarded community

Senior Discount

At least one named insured must be age 60 or older as of the effective date

Water Protective Device

Photos and/or screenshot of device app including risk location address required.

- **Level 1:** Sensor detects leak; notifies via app (sensors in all bathrooms, kitchens, utility rooms)
- **Level 2:** Sensor + auto shutoff; professional installation required
- **Level 3:** Flow-based + auto shutoff; professional installation required

WIND MITIGATION CREDITS

FEATURE	CREDIT & HOW IT'S APPLIED
Roof Cover	If Roof Year $\geq$ 2002, the FBC Equivalent credit applies automatically.
Roof Deck Attachment	If Roof Year $\geq$ 2008 and Year Built $\leq$ 2001, Level C (8d nails, 6/6) applies automatically.
Secondary Water Resistance	If Roof Year $\geq$ 2025, the SWR credit applies automatically. For older roofs, the credit is available with a wind mitigation affidavit.
Opening Protection	If in Broward or Miami-Dade and Year Built $\geq$ 1995, Class A applies automatically. If the risk location is within the Windborne Debris Region (outside Broward/Miami-Dade) and Year Built $\geq$ 2002, Class A applies automatically.

Wind Mitigation Affidavit (OIR-B1-1802): The credits above are applied automatically. Any credits beyond these system defaults — including SWR on pre-2025 homes, upgraded opening protection, or roof-to-wall connection upgrades — require a completed affidavit submitted at or prior to binding.

ROOF DECK ATTACHMENT — NEW CONSTRUCTION (2002+)

For 2002+ new construction, Roof Deck Attachment is not a rating variable — deck strength is already captured in the FBC Windspeed field. The system shows *Other* for all new-construction quotes regardless of the wind mit certificate; this is correct (no premium impact).

ROOF SHAPE — HIP

A roof qualifies as Hip — and earns the more favorable hip-roof rate — only when at least 75% of the roof perimeter is hip shape (per Sypher data dictionary). Below that threshold, select Gable or Other.

SURCHARGES

Lapse in Coverage

Lapse $\leq$ 30 days: no referral required. Lapse $>$ 30 days: must submit *unbound* for UW review; surcharge applies if approved; considered only in extenuating circumstances at sole UW discretion. Force-placed coverage does not count as continuous coverage. Not applicable to new purchases unless effective date is $>$ 30 days from purchase date

Prior Loss

Non "Act of God" loss within past 36 months; details must be disclosed to UW before binding, whether paid or not

Optional Coverages

Additional Amounts of Coverage A

20% of Cov A; Coverage A must equal or exceed 100% of RCE to add this coverage. Not available for Dwelling Under Construction

Animal Liability Coverage

\$25,000 or \$50,000. Not available when any ineligible animal or breed is present. Ineligible: vicious/aggressive animals (bite/damage history); reptiles, amphibians, exotic/non-domestic animals; livestock or saddle animals. Ineligible breeds: see Ineligible section

Golf Cart Coverage

\$5K physical damage (ACV) / \$50K–\$100K liability, \$100K only when required by overlying umbrella. Not available for Dwelling Under Construction

Home Computer Coverage

\$1,000–\$20,000 in \$1K increments. Not available if Cov C excluded or Dwelling Under Construction

Home Systems Protection

\$100,000 limit (\$1,500 sublimit for equip >15 yrs); separate \$500 deductible. Not available for Dwelling Under Construction

Hurricane Coverage for Screened Enclosures & Carports

\$10,000–\$50,000 in \$1K increments. Included in Sypher Elite; also available as standalone

Increased Special Limits — Jewelry, Watches & Furs

Base \$1K theft; increase in \$500 increments to \$5K (Cov A <\$750K) or \$10K (Cov A ≥\$750K)

Increased Special Limits — Silverware, Goldware & Pewterware

Base \$2.5K theft; increase in \$500 increments to \$5K (Cov A <\$750K) or \$10K (Cov A ≥\$750K)

Limited Fungi, Wet/Dry Rot, or Bacteria

\$10K/\$10K/\$25K included; options to \$25K/\$25K/\$50K or \$50K/\$50K/\$50K. Increased limits not available: Dwelling Under Construction or prior non-weather water loss at this location. Prior weather-related water loss at this location with increased limits requested: refers to UW; pre-bind air quality testing required

Loss Assessment Coverage

\$1K included; options: \$3K, \$5K, \$10K available when Coverage A >\$750K

Ordinance or Law

Default 10%; options: Excluded, 25%, or 50%

Personal Injury Coverage

Coverage extended under existing Coverage E limit of liability when coverage added. High-profile policyholders may require additional UW approval (see Refers to Underwriting, page 6). Not available for Dwelling Under Construction

Personal Property Replacement Cost

Defaults to included. Not available if Cov C excluded or Dwelling Under Construction

Scheduled Personal Property

- Multiple categories; appraisal/bill of sale (within 3 yrs) required for any item >\$5K
- Max single item \$10K/\$20K; max schedule \$50K/\$100K (Cov A <= \$750K)
- Stamps & coins: appraisal for any item >\$250; max \$1,000/category; schedule individually, not as a set
- Not available if Cov C excluded or Dwelling Under Construction

Sinkhole Loss Coverage

Pre-bind inspection at policyholder's expense; 10% of Cov A deductible. All policies include Catastrophic Ground Cover Collapse

Solar Panel & Solar Water Heating System(s) Coverage

Optional property coverage for solar panels & solar water heating systems on an eligible home.

- Choose \$1,000 up to 20% of Cov A, in \$1K increments; limits >\$50K require UW approval prior to binding
- Liability arising from solar equipment is limited to \$25,000 per occurrence by endorsement
- The home must first qualify — see **Solar Panels — Home Eligibility**, page 5. Solar roof systems (solar shingles/tiles, incl. Tesla) are ineligible for the program

Structures Rented to Others

Cannot exceed 70% of Cov A when combined with Coverage B limit. Not available for Dwelling Under Construction

Sypher CyberGuard Coverage ★

\$25,000 Annual Aggregate: Cyber Attack, Cyber Extortion & Online Fraud (\$500 deductible). Separate \$25,000 Annual Agg: Identity Recovery & Home Title Fraud (\$0 deductible)

Sypher CyberGuard Premier Coverage ★

\$25,000 Annual Aggregate: Cyberbullying & Online Harassment, Data Breach, Cyber Attack, Cyber Extortion, Online Fraud (\$500 deductible). Separate \$25,000 Annual Agg: Identity Recovery & Home Title Fraud (\$0 deductible)

Water Back-up & Sump Overflow

\$5,000 standard. \$10,000 available when Coverage A ≥\$750K

Water Damage Limitation

\$10,000/occurrence; mandatory for homes >40 years (new business and renewal); UW approval required to remove when risk is >40 years. Refer to UW if not selected AND policyholder has prior water loss within last 3 years

Windstorm/Hail Roof Surfacing Payment Schedule — FL

Pays windstorm/hail roof losses on a percentage schedule based on roof material & roof age (in lieu of full RCV); auto-included when roof age >10 years. Not available when wind is excluded.

- Shingle:** full RCV up to 15 years; schedule applies >15 years
- Tile/Metal:** full RCV up to 20 years; schedule applies >20 years
- Removal at roof age 10–14 may require a pre-bind roof inspection based on condition; removal on shingle >15 or tile/metal >20 refers to UW w/ pre-bind roof inspection

E – Personal Liability	\$100,000	\$300,000	\$500,000
F – Medical Payments to Others	\$1,000	\$5,000	\$5,000
Personal Injury	Not Included	Not Included	Included

* Sypher Edge Package Loss of Use defaults to 10% but may be increased to 20%; includes Loss of Use due to Power Shortage. Not available when Coverage C – Personal Property is excluded. Items marked * under Special Limits reflect base package limits; agents may increase via the applicable optional coverage endorsement.

† Applies to an attached screen or pool enclosure, which falls under Coverage A on Sypher Elite. Detached / free-standing enclosures — and Basic/Edge policies — use the optional Limited Hurricane Coverage for Screened Enclosures & Carports (up to \$50,000; unavailable if wind/hail is excluded).

Bonus: Sypher Edge is priced to win. For customers already adding Personal Property Replacement Cost, Sypher Edge is often the better value, adding enhanced package benefits while costing less than Basic with PPRC added separately in some instances. **Why?** The Edge Package uses bundled multiplicative pricing. Depending on home and roof age, Edge can cost slightly less than Basic with PPRC added separately. This is intentional, not a mistake.

Special Personal Property (Sypher Elite): upgrades Coverage C – Personal Property from named perils to open perils (“special form”). When you apply the Sypher Elite package, contents are covered for any sudden and accidental direct physical loss unless specifically excluded (HO-5-level contents protection). Refer to form SFL VH3 SP2 for governing terms, conditions, and exclusions.

Eligibility & Underwriting

APPLICANT BACKGROUND

- No prior fraud and/or arson convictions (ever)
- No material misrepresentation within past 7 years
- No bankruptcy, foreclosure, lien, judgment, or repossession within past 5 years
- No non-prevailing personal lines lawsuit against a carrier (ever)

LAPSE IN COVERAGE

- Lapse ≤30 days: no UW referral required
- Lapse >30 days: must submit *unbound* to UW for prior review; surcharge applies if approved; considered only in extenuating circumstances at sole UW discretion
- Force-placed coverage does not count as continuous coverage
- Not applicable to new purchases unless effective date is >30 days from purchase date

LLCS / TRUSTS

- LLCs and Personal Trusts eligible for personal tax purposes only; no business exposure
- LLC: insured (and spouse) must be the sole Member(s)/Manager(s)
- Trust: insured must be Grantor or Beneficiary
- Individuals within LLC/trust must be sole occupants; policy in name of individual
- Corporations, partnerships, estates, or associations: ineligible

OCCUPANCY — ELIGIBLE

- Owner-occupied: primary, secondary, or seasonal
- Secondary/seasonal: owner-occupied ≥3 months, <9 months over any 12-month period
- Dwelling under construction (ground-up; not renovation): refer to UW prior to binding. DUC is ineligible if: will not complete within 12 months; insured is acting as own GC; home is made uninhabitable during renovation; or dwelling is for someone other than the named insured. Proof of GC General Liability & Workers' Compensation required
- For occupancy exclusions (vacant, tenant-only, homesharing, etc.) see **Ineligible — Occupancy** on page 6

LOCATION

Flood & Other Risk Characteristics

- Zone A or V: maximum NFIP flood limits OR Sypher Flood Waiver required; post-bind trailing doc required (flood waiver or proof of coverage)
- Structures partially or fully over water: ineligible

Protection Class

- PC 1–8: eligible
- PC 9: refer to UW (centrally monitored fire alarm typically required)
- PC 10: ineligible; may be submitted to UW

INSPECTIONS

Pre-Bind (Policyholder Expense)

- Shingle roof >15–20 yrs + no roof surfacing payment schedule included; Shingle >20 yrs (with or without payment schedule)
- Tile or Metal roof >20–25 yrs + no roof surfacing payment schedule included; Tile/Metal >25 yrs (with or without payment schedule)
- New purchase that is a foreclosure/short-sale (bank/detailed pre-purchase inspection required)

MAJOR SYSTEMS & OVERALL CONDITION

Roof

- **Shingle:** full RCV up to 15 yrs; Roof Surfacing Payment Schedule applies >15–20 yrs (>20 requires UW approval w/ pre-bind roof inspection)
- **Tile/Metal:** full RCV up to 20 yrs; Roof Surfacing Payment Schedule applies >20–25 yrs (>25 requires UW approval w/ pre-bind roof inspection)
- Schedule percentages vary by roof material & age — tile/metal depreciate more slowly than shingle

System Updates (Homes >20 Years)

- HVAC, electrical & plumbing: updated within past 15 years; partial updates acceptable

Electrical

- Min 150 amps; no fuses, knob-and-tube, or aluminum wiring

Plumbing

- No polybutylene; PEX/polyethylene: 2009+ original build or full re-plumb only
- Galvanized or cast iron plumbing: requires UW review prior to binding
- Water heaters >15 yrs: refer to UW (tankless exempt)
- Braided stainless steel supply lines required; non-braided lines >10 years old and rust/corrosion on any plumbing lines or fixtures are grounds for ineligibility at post-bind inspection

CONSTRUCTION

Open Foundation

- Stilts/pilings/piers: eligible only when concrete, steel, or wood pilings AND Year Built ≥ 2005
- Open foundation (slight raise): ineligible unless fully enclosed

Solar Panels — Home Eligibility

Rack-mounted PV panels are acceptable only when **ALL** of the following are met:

- Installed after 2016 by a licensed solar contractor
- Permitted, with the post-installation inspection completed
- Tier 1 Interconnection Agreement only
- Not installed on a clay or cement tile roof
- Shingle or metal roof: current roof is 10 years old or newer
- Flat roof: current roof is 5 years old or newer
- Note: solar roof systems — solar shingles/tiles that are the roof itself (incl. Tesla) — make the home ineligible regardless of the above. To insure eligible panels, add the Solar Panel & Solar Water Heating System(s) Coverage (pg 3)

PRIOR LOSSES

- See the **Ineligible** section (page 6) for prior loss rules; ineligible triggers include prior liability or fire loss, prior water loss within 36 months, sinkhole loss, and non-weather losses ≥\$10K

MORTGAGES

- Maximum 2 mortgages on property; 3 or more mortgages: ineligible

Post-Bind (Sypher Expense)

- Exterior only: all other homes not meeting the thresholds below
- 4-point Interior & Exterior: risk >30 years old AND Coverage A <\$1M (covers roof, HVAC, electrical, plumbing)
- High Value Interior inspection: Coverage A ≥\$1M (full interior & exterior)

Refers to Underwriting

These don't automatically decline — they require Underwriting review or approval before binding.

- **Acreage / Isolated Risk:** Over 5 acres, or isolated risk (must be visible from paved road and/or neighboring residences)
- **ATVs:** ATVs at this or any location without overlying bodily injury liability coverage of minimum \$100,000 on all owned ATVs — proof of overlying coverage required
- **Commercial Exposure:** Within 300 ft of a commercial exposure
- **Coverage A Limit:** Coverage A above \$2M or below program minimum
- **Dwelling Under Construction:** Must complete within 12 months; GC GL & WC proof required
- **Exotic Animals:** Reptiles, amphibians, or exotic/non-domestic animals on premises
- **Farm / Ranch:** Personal farm/ranch (no U-pick)
- **Foreclosure / Short-Sale:** Current or within last 3 years
- **Galvanized / Cast Iron Plumbing:** Requires UW review prior to binding
- **High-Profile Applicant:** Athletes, celebrities, public figures: pre-bind UW review required; UW evaluates all liability exposures including Personal Injury
- **Historic Registry:** Home is on a historic registry
- **Lapse in Coverage:** Lapse >30 days: submit unbound; surcharge applies if approved; extenuating circumstances only
- **Livestock:** 1–3 livestock or saddle animals (personal use only — submit to UW)
- **Loss Assessment \$10K:** Requires Coverage A >\$750K; no separate referral needed
- **Personal Liability \$500K:** Prior approval required
- **Prior Loss — Non-Weather:** Non-weather (non-water) loss <\$10K within last 36 months
- **Prior Water Loss:** Any prior water loss at this location requires UW review before binding; water loss >\$5K at this location (new business) requires separate review. Prior water loss at a different location where insured name matches also requires disclosure
- **Protection Class 9:** Written approval; centrally monitored fire alarm typically required
- **Renovation:** Home stays habitable during renovation (submit unbound)
- **Residence Employees:** Pre-bind review required
- **Risk Change:** Substantial change in risk (prior carrier cancel or non-renew)
- **Roof Age:** Shingle >20 yrs; Tile/Metal >25 yrs — UW approval w/ pre-bind roof inspection on the Sypher template
- **Solar Coverage:** Solar panel coverage over \$50K (UW approval prior to binding)
- **Water Heater Age:** Greater than 15 years (tankless exempt)

Ineligible

ANIMALS

- Ineligible dog breeds (pure or mixed): Akita, American Bull Dog, Belgian Malinois, Beauceron, Caucasian Mountain Dog, Chow, Doberman, German Shepherd, Keeshond, Pit Bull, Presa Canario, Rottweiler, Staffordshire Terrier, Wolf
- Risk where applicant breeds, rescues, trains, fosters, or boards animals
- Vicious, non-domestic, exotic, or guard animals, or any animal with a bite/attack history
- More than 3 livestock or saddle animals

OCCUPANCY — INELIGIBLE

- Vacant or tenant-only occupied
- Owner occupies the home less than 3 months over any 12-month period
- More than 2 families or 2+ long-term boarders (>3 months)
- Fraternities or sororities
- Home-sharing and premises-sharing platforms: overnight stays (Airbnb, VRBO, etc.) or rental of pools, backyards, courts, home gyms, or similar spaces (Swimply, Swimply Spaces, or similar)
- Business use with client/employee foot traffic (home office — computer/typing only — is OK)

ROOF TYPES

- Solar tile/shingle (incl. Tesla); flat roofs (<2:12 pitch) unless superior construction
- Worn or damaged roofs; >1 layer of surfacing; <5 years useful life remaining
- Roofing material other than: asphalt shingle, clay/concrete tile, metal (not tin), slate tile, reinforced concrete

LOCATION

- Protection Class 10; structures partially or fully over water; condemned properties
- Commercial farming, ranching, or agricultural activities
- Built on a landfill or refuse site
- Not accessible year-round to fire equipment (incl. barrier islands without a road)
- Prior or current sinkhole or earth movement activity

PRIOR LOSSES (PAST 36 MONTHS)

- Non-weather loss ≥\$10K or more than 1 non-weather loss
- Any prior liability or fire loss
- Any prior water loss within 36 months (NB, regardless of amount) — except F.S. 627.4133 losses
- Prior sinkhole loss (any time / any location); any open or unrepaired loss

HOUSING TYPE & CONSTRUCTION

- Vacant or tenant-only occupied; fraternities/sororities; adult/senior/disabled care facilities
- Non-habitational or originally non-residential dwellings
- Mobile, modular, log, pre-fabricated, kit homes, or EIFS construction
- Homesharing and premises-sharing platforms (Airbnb, VRBO, Swimply, Swimply Spaces, or similar — including overnight stays and rental of pools, courts, home gyms, or similar spaces)

CONDITION & LIABILITY EXPOSURE

- Uncorrected fire or building code violations; properties in disrepair; existing damage
- Pool not surrounded by self-latching fence/enclosure ≥4 ft; diving board or pool slide present
- Trampoline, skateboard ramp, bicycle ramp, empty in-ground pool, or unprotected hot tub/spa

Sypher Coverage Differentiators

Where the Sypher HO-3 goes beyond the standard Florida market. Use these to differentiate at quote.

★ WIND-DRIVEN RAIN

- The Sypher HO-3 has **no wind-driven rain exclusion**. Many carriers restrict this coverage with express language requiring a clear, **storm-created opening** in the roof or wall before interior rain damage applies. Sypher's wording has no such requirement — there is no exclusion to apply.
- A wind-driven rain loss is adjusted like any other water loss under the policy — no opening requirement, no wind-driven rain exclusion standing between your insured and the claim. **Many Florida carriers can't say that.**

★ HIDDEN LONG-TERM LEAKAGE & SEEPAGE

- Many companies have language requiring the damage to be hidden and unknown **and** not have been happening for more than **14 days** — anything longer is excluded. **Sypher's policy does not include the 14-day language.** Damage from seepage or leakage that is hidden and unknown is not excluded, regardless of how long it has been occurring.
- **Hidden and unknown means the damage was not:** visible on the surface of walls, ceilings, or floors, or inside cabinets (contents blocking the view don't make it hidden), and not something a reasonable inspection by any insured would have found. The leaking system itself — age, wear, corrosion — is never included.
- **Dollar limits:** when the **Damage Caused by Water and Tear Out Limitation** ("Limited Water Damage") form is attached — Sypher intends to attach it on risks over 40 years old — the Declarations limit applies (Coverages A, B & C combined, incl. tear-out and matching). Without the form, there is no separate water-damage dollar cap.

★ PACKAGE ENDORSEMENTS — ELITE UPGRADES CONTENTS TO SPECIAL PERILS

- Sypher Edge and Sypher Elite bundle enhanced limits and coverages — see **Package Endorsement Options**, page 4.
- **Sypher Elite includes Special Personal Property:** Coverage C – Personal Property is upgraded from named perils to **special ("open") perils**.
- **What that means:** when you apply the Sypher Elite package, contents are covered for **any sudden and accidental direct physical loss unless specifically excluded** — HO-5-level contents protection. Instead of the insured having to fit a loss into a listed peril, the burden shifts to pointing to an exclusion.
- Refer to endorsement form **SFL VH3 SP2** for governing terms, conditions, and exclusions.

★ ATTACHED SCREEN & POOL ENCLOSURES — FULL COVERAGE A ON ELITE

- On the **Sypher Elite** package, an **attached screen or pool enclosure is included under Coverage A** (the dwelling) **with no sublimit** — insured under the full Coverage A limit, not capped as a separate structure.
- Because it falls under the dwelling limit with no separate cap, **be sure to account for the pool and pool screen enclosure when figuring Coverage A** — the Coverage A amount must be high enough to cover them.
- For a **detached / free-standing** enclosure, the optional **Limited Hurricane Coverage for Screened Enclosures & Carports** applies (\$10,000–\$50,000, in \$1,000 increments; unavailable if wind/hail is excluded).

** Every claim and every loss is different. Nothing on this page is a guarantee of coverage — it outlines Sypher's policy wording. All claims are adjusted subject to the policy's terms, conditions, and exclusions.*

Construction Type — Definitions & How the % Inputs Rate

Frame: exterior walls are **wood-framed**. Rates as Frame when % **Wood Framing** > **33%** and the exterior finish is **not** a qualifying veneer material (below). Base construction class.

Masonry: exterior walls are **solid masonry** — **concrete block or poured concrete**. Rates as Masonry when % **Concrete Block** ≥ **67%**. The wall structure itself is masonry, not a veneer.

Masonry Veneer: a **wood-framed** home clad in a veneer. When > **50%** of the exterior finish is brick/stone veneer, cement-fiber (Hardie), hardboard, or solid brick, it rates as Masonry Veneer — better than Frame on AOP & non-hurricane wind. (Hardboard / Hardiboard = Masonry Veneer.)

Hip Roof: a roof that **slopes down on all sides** with no large flat gable ends. Qualifies as Hip — earning the favorable hip-roof rate — only when ≥ **75%** of the roof perimeter is hip-shaped. Below that, select Gable or Other.

In-Ground Pool → Coverage A: an in-ground pool **always falls under Coverage A** — its replacement value is included in the dwelling RCE, not rated as Other Structures.

Solar Panels & Solar Water Heating — Eligibility & Coverage

The single reference for solar. A home must first qualify, then solar equipment is insured by adding the optional coverage. (Also summarized on the Optional Coverages & Eligibility pages.)

HOME ELIGIBILITY — RACK-MOUNTED PANELS

Acceptable **only when ALL** are met:

- Installed **after 2016** by a licensed solar contractor
- Permitted, with the **post-installation inspection completed**
- **Tier 1 Interconnection Agreement** only
- **Not** on a clay or cement **tile roof**
- Shingle or metal roof: current roof **10 years old or newer**
- Flat roof: current roof **5 years old or newer**

OPTIONAL SOLAR COVERAGE

On an **eligible** home:

- Choose **\$1,000 up to 20% of Coverage A**, in \$1,000 increments. Limits **over \$50,000 require UW approval** prior to binding.
- Liability from solar equipment **limited to \$25,000 per occurrence** by endorsement.
- The home must first qualify under Home Eligibility.

Solar roof systems are ineligible. Solar shingles or tiles that **are the roof itself** (including Tesla) make the **home** ineligible for the program, regardless of the criteria above. Only rack-mounted panels on a qualifying roof are eligible.

How to Get Full Water Coverage on Homes Over 40 Years Old

Every Sypher policy on a home more than 40 years old carries the **Water Damage Limitation** (“Limited Water Damage”) endorsement, capping water damage at **\$10,000 per occurrence** — mandatory at new business and renewal. It **can be removed**, restoring full water coverage, with Underwriting approval. Removal requires **two things: no prior water losses** and a completed **Plumbing Condition Affidavit (Form SY PLUMB 07 26)**.

HOW REMOVAL WORKS

- Agent requests full water on a 40+ home **before binding**. There must be **no prior water losses at the location in the last 36 months** (any prior loss follows the normal prior-loss rules first).
- When you **refer a 40+ home to remove the limitation**, Underwriting sends you the **Plumbing Condition Affidavit (SY PLUMB 07 26)** to complete. Agents don't pull the form themselves — UW or Policy Servicing provides it on referral (it's also referenced in the Pre-Bind Requirements table).
- The completed affidavit and all photos go back to Underwriting before the policy can be bound (or renewed, when UW requests it at renewal). A **clean affidavit paired with no prior water losses supports removal** of the limitation; deficiency findings either keep the limitation in place or trigger the standard condition rules.

THE PLUMBING CONDITION AFFIDAVIT (SY PLUMB 07 26)

- It is a **professional inspection form, not a homeowner self-certification**. It must be completed in full by a **Florida-licensed plumbing, general/building/residential contractor, or professional engineer** who physically inspected the plumbing. A current, verifiable **FL license number and dated signature are required** — forms missing either are rejected outright.
- The inspector documents the full plumbing picture: foundation & water source, all supply piping materials present (and the predominant one), and each water heater's type & age — plus **eight yes/no findings that mirror Sypher's eligibility rules**: galvanized or cast iron anywhere, polybutylene, non-conforming PEX/polyethylene (not 2009+ original build or fully re-piped since), current or prior leakage, rust or corrosion on any lines/fixtures, supply lines that aren't braided stainless or are >10 years old, a tank water heater >15 years old, and any plumbing updates in the past 15 years.
- Every **“Yes” requires a written description and a supporting photo**, and a core photo set is mandatory regardless (water heater with rating plate, representative exposed supply piping, and under-sink lines/valves in the kitchen and every bathroom). If galvanized or cast iron is present, a dedicated detail section captures its location, extent, age, condition, and any re-pipe history.
- Some findings — e.g., polybutylene or evidence of leakage — are **eligibility problems in their own right**, not just full-water blockers.

The agent pitch

On a 40+ home with an updated plumbing system, Sypher isn't a hard “limited water” market — **full water is attainable with one inspection form and a clean loss history**.

Sales Leaders — Your Connection in the Field

Sypher is built for independent agents, and our sales leaders are your direct line to the team. Reach out for appointments, product questions, quoting support, or to schedule agent training.

Thank you for partnering with Sypher — the future of Florida homeowners insurance.

Payment Link & Grace Periods

Insured-Billed Policies

Payment link is active for **7 days after the policy effective date**. If payment is not received within that window, the application voids and no policy is issued.

Mortgagee-Billed Policies

Lender has a **15-day grace period** from the effective date to remit payment. If payment is not received within 15 days, a Notice of Cancellation is issued with an additional **15 days to cure**. If unpaid by the cancellation effective date, the policy cancels back to the **original policy effective date** (earned premium = \$0). If the mortgagee remits payment within **90 days of the effective date**, the policy will be reinstated per Florida statute.

Payment Plan Options

PLAN	DOWN PAYMENT	INSTALLMENT SCHEDULE	FEES
Full Pay	100% at bind	Single payment — no future installments	No setup fee; no installment fees
Semi-Annual	60% at bind	Remaining 40% due at day 180	\$10 setup fee at bind; \$3 on the installment
Quarterly	40% at bind	20% at day 90 20% at day 180 20% at day 270	\$10 setup fee at bind; \$3 on each of 3 installments
Mortgagee Full Pay	100% (lender)	Single payment from escrow — mortgagee-billed policies only	No installment plans available on mortgagee-billed

All fees & assessments are front-loaded to the down payment regardless of plan selected. Premium finance agreements are not accepted.

Claims — Reasonable Emergency Measures

HOW TO FILE A CLAIM

Call **844-817-1700** and follow the prompts, or visit **getsypher.com** and select “**File a Claim.**” Claims are available 24/7, including catastrophe claims.

REASONABLE EMERGENCY MEASURES & THE OVER-LIMIT EMAIL

After a covered loss, the policy reimburses reasonable steps to protect the home from further damage, up to the greater of **\$3,000 or 1% of Coverage A** (this base limit excludes the roof). Roof protection is separate: tarps are reimbursed, and shrink wrap up to a separate **2% of Coverage A** with approval. The cap is lifted during a Hurricane Occurrence. To exceed the limit, the policyholder must email **REM@getsypher.com** for approval before proceeding (with an itemized estimate) — Sypher responds within 48 hours; if Sypher doesn't respond within 48 hours on a covered loss, the policyholder may proceed up to the reasonable cost. Mold/fungi remediation is not a covered emergency measure.

We're Here to Help.

One number for everyone — the menu routes you to the right team, including 24/7 catastrophe claims.
