Basic Underwriting Information	
Age of Home	Homes 1900 and newer are eligible. Homes must be in good condition with acceptable updates to all major systems.
Roof	Roofs must be in good condition. Any roof exhibiting deficiencies such as, but not limited to: deterioration, cracked tiles or shingles, granular loss, improper repairs, loose tiles or shingles, ponding water, roof leaks, or where the roof is worn or has unrepaired damages, including evidence of curling, lifting, buckling, patches, or broken tiles, shingles, or metal panels are ineligible. <i>*Material eligibility, age eligibility, and wind hail deductible requirements vary by program, state, and distance to coast.</i>
Electrical	All homes must have acceptable wiring and circuit breakers. The following electrical exposures are ineligible: Knob and tube wiring, fuses, cloth sheathed wiring, double-tapped breakers, or aluminum branch wiring. The following panels are ineligible: Federal-Pacific, Stab-Loc, Zinsco, Challenger, or Sylvania electrical panels or breakers
Plumbing	Must be in good condition and properly maintained without evidence of leakage. Updates must have been completed as necessary and all components of the system maintained. Polybutylene, Galvanized, Lead and Cast Iron plumbing types are ineligible unless expressed permission is provided by Underwriting.
HVAC	Heating/cooling systems must be permanently installed, in good condition, and properly maintained. The following is strictly ineligible: • Wood burning stoves, evaporative coolers, or whole house fans. The following is subject to Underwriting review and approval: • Boiler systems, Geothermal systems, Wood Burning Furnaces, Window/Wall AC Unit
Location	Protection Classes (PC) 9-10 require central station reporting fire alarm. PC 10 eligibility varies by program and is subject to Underwriting review.

Basic Underwriting Information	
Prior Insurance	Risks with No Prior Insurance or a lapse of coverage that exceeds 30 days from the effective date of the company policy, must receive Underwriting approval prior to binding. This does not apply to new home purchases as long as the company policy takes effect on the purchase date.
Solar Panels	Solar panels must be professionally installed by a licensed contractor. Pool Heating Systems: Solar panels installed exclusively for the purpose of heating a pool are eligible for coverage. Power-Generating Solar Panels: Solar power-generating systems must be professionally installed by a licensed contractor. Net-Metering is acceptable; however, the utility or electrical provider may not be listed as an additional insured on the homeowner's policy. Solar Roofing Systems: Solar tiles, shingles or solar roof systems, including but not limited to Tesla Solar Roofs Tiles, are not eligible. Note: Tesla Solar "Panels" which attach to pre-existing roof structures are eligible, however, Tesla Solar Roofs Tiles are ineligible.

Ineligible Risks (include but are not limited to)	
Arson, Fraud or other offenses	Applicants who have been convicted of Arson, Fraud, or other insurance related offenses are strictly ineligible.
Historical Homes	Due to valuation challenges, high cost of repairs and materials, specialized labor, aged systems, and heightened requirements from local and state authorities, historical homes are ineligible.
Loss History	Applicants or homes with prior loss activity within the last five years may be acceptable pending Underwriting review and approval. For exception requests, detailed information is required pertinent to the loss, including but not limited to: • Date of loss. • Financial information related to the loss. • Details of the loss (i.e. what was damaged and subsequently repaired). • Root cause of the loss. • What was done to prevent future, similar losses and exposure. Open Claims, Unrepaired or Existing Damage - Applicants or risks with open claims or unrepaired / existing damage are ineligible. Risks may be reviewed for exceptions. See information above for information required. Prior Liability losses are ineligible unless expressed approval is provided.
Mobile, Kit or Prefabricated Homes	Mobile, kit, or prefabricated homes are ineligible.
Mortgagees / Lienholders	No more than two (2) mortgagees.
Occupancy	Vacant risks without both Central Station Reporting Fire and Burglar alarms active.
