Submit Your Risk Online at usassure.com

- Start your application online at usassure.com. If declined by our standard market, a separate E&S quote may be provided — no secondary application necessary.
- Contractor name and site plan required for all E&S submissions. Additional information *may* be required: construction timeline, budget, geotechnical report, or flood supplemental.
- These products are only available through a licensed surplus lines broker. As a licensed surplus lines broker, US Assure E&S is able to offer these products and manage surplus lines filings for retail agencies. Most states require that the insured's agent perform a diligent search of the admitted market, typically obtaining declinations from three admitted carriers, before the risk may be placed with a non-admitted insurer. We will inform of the documentation needed.
